

# 7 RADIO SHOWS ON COVID-19 FUND ACCOUNTABILITY AND VACCINATION

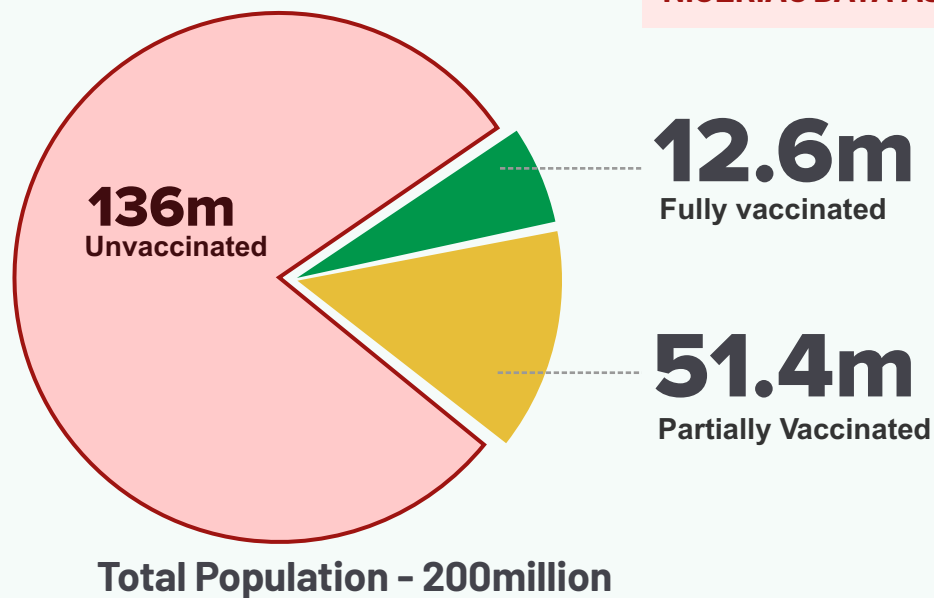

COVID-19 was first reported in **Wuhan, China**, before spreading worldwide, with most governments totally unprepared. Our reality as we knew it changed, leaving us with no option but to embrace what has now become the 'new normal'.

Researchers have developed **several vaccines** to help fight against the deadly virus, the **fastest development of a vaccine** in human history. However, these vaccines have been the subject of several conspiracy theories and a lot of people have refused to take them.

According to the **Beating Corona** report published by **The Future Project**, over **3.65 billion dollars** has been received as COVID-19 donations/interventions. Unfortunately, the spending of these funds have been trailed with controversy over accountability. In a democratic society, **accountability is synonymous to good governance** and as we prepare for the 2023 general elections, it is important we ask important questions.

NIGERIA'S DATA AS OF NOVEMBER 8, 2022

**266,138**  
Confirmed Cases of COVID-19

**2,884**  
Total Fatalities till Date

## TOP 3 STATES WITH THE HIGHEST CONFIRMED CASES TILL DATE
