

# The Electorate

AN OVERVIEW OF CVR NUMBERS - 2.1

After INEC cleaned up the CVR data, **76.56%** of those who registered after 2019 were between 18 and 34 years old. We added only about **9.5 million** new voters to the database between 2019 and 2022, while we added about **16.5 million** between 2015 and 2019!

While there has been a lot of buzz about young people registering to vote and a new energy in the process, **the data doesn't support the narrative.**

INEC has the largest citizens' database in the West African sub-region so its data demographics are very interesting.
